## The Talent Hunt Idea

Omega's Talent Hunt Program was created in the Fraternity's Sixth District (North Carolina and South Carolina) on April 19, 1945. The Talent Hunt was born out of the unequal opportunity afforded to some American youths to develop and give expression to their talents.

The idea of this project is to discover the talented youth in our various communities and to present this talent to the public. When exceptionally talented youth are discovered, the Sixth District will take adequate steps to ensure they get their chance to exhibit their talents. Continuous and persistent efforts will also be made to invoke interest of universities, colleges, and other institutions of higher learning, as well as, groups and individuals of such exceptionally talented youth.

We hope the audience will enjoy the program and will join with Omega to encourage all those who present their talents this afternoon.
